ANIMA Opportunities 2027 (the "Fund"), a sub-fund of ANIMA Funds plc.
I Class Shares ISIN: IE00BZ978V31 (the "Shares").

ANIMA Funds plc has appointed ANIMA SGR S.p.A., as its UCITS management company (the "Manager"), part of the ANIMA Holding S.p.A. group of companies.

Objectives and Investment Policy

Investment Objective: The objective of the Fund is to provide an attractive rate of return over the period up to the Maturity Date. From the Maturity Date, the objective of the Fund will be to provide liquidity and current income, to the extent consistent with preservation of capital.

The Fund is actively managed without reference to any benchmark.

Main categories of financial instruments that are the object of investment: Until the Maturity Date: the Fund will invest on a global basis mainly in a diversified portfolio consisting of Euro Money Market Instruments, Euro Debt Instruments and Non-Euro Debt Instruments in each case listed or traded on a Recognised Exchange.

The Fund may invest the entire portfolio in securities/instruments of below investment grade, with a minimum Standard & Poor's or Fitch ratings of B- or Moody's rating of B3 at the time of purchase or which are un-rated at the time of purchase but, in the opinion of the Manager, of comparable quality.

Until the Maturity Date: it is intended that the Euro Debt Instruments and Non-Euro Debt Instruments to be held by the Fund will have a maximum maturity consistent with the Maturity Date and the Maturity Period, decreasing to near zero as the Maturity Date and the Maturity Period approach.

The Fund may invest up to 20% of net assets in equity instruments.

The Fund may invest up to 30% of its net assets in emerging markets. The Fund will never invest in Russia.

The Fund will maintain a low exposure to non-Euro denominated currencies.

After the Maturity Date and during the Maturity Period: the Fund will invest primarily in Euro Money Market Instruments, Euro Debt Instruments and/or Non-Euro Debt Instruments. Euro Money Market Instruments, Euro Debt Instruments and/or Non-Euro Debt Instruments will mainly be of investment grade or better at the time of investment or, if un-rated, will be, in the opinion of the Manager, of comparable quality.

The Fund may use Financial Derivative Instruments for (i) hedging and/or (ii) risk reduction; and/or (iii) investment purposes.

Redemption of Shares: You can ask the Fund to buy back your Shares on any business day, provided instructions are received before 1 p.m. (Irish time). Investors can ask for full or partial repayment of the Shares held. Please refer to the Prospectus for further dealing information.

Benchmark: The Fund does not aim to track the performance of a benchmark. Portfolio composition is determined based on active and discretionary investment decisions and choices driven by market conditions, within the Fund's investment objective.

Income: The Directors of ANIMA Funds plc may decide to declare distributions which may be paid out of the capital of the Fund. Please refer to the risks outlined below. Distributions, if declared, will be distributed on an annual basis.

Recommendation: This Fund is suitable for investors who can afford to set aside capital at least until the Maturity Date (31 December 2027).

Risk reward and Profile

The historical data used to calculate the synthetic risk indicator cannot provide a reliable indication about the future risk profile of the Fund.

The fund has been classified in risk/reward class 4, because the highest value between the annualized volatility of its weekly returns over the last five years and the annualized volatility of the weekly returns of its pro-forma asset mix over the last five years is equal to or greater than 5% and less than 10%.

The risk/reward category shown is not guaranteed to remain unchanged and the categorization of the Fund may shift over time. Please note, the lowest category on the indicator does not mean risk free.

Risks that are materially relevant to the Fund and which are not adequately captured in the risk-reward indicator:

Liquidity Risk: the risk that, in certain market conditions, financial instruments may not be readily sold, unless substantial losses are incurred.

Credit Risk: the risk that the issuer of a debt instrument may default, in whole or in part, on its obligation to repay the full capital amount invested and/or the interest thereon.

Dividends may be paid out of the capital of the Fund. As a result capital will be eroded and distributions will be achieved by foregoing the potential for future capital growth and this cycle may continue until all capital is depleted.

For further information on the risks related to the Fund please refer to its Fund Information Card and to the section of the Prospectus entitled "Risk Factors".
